

MEETING REPORT

Team Name: **Date of Meeting:** 18/04/2023

Start Time: 10:00 **End Time:** 12:00 **Meeting Location:** Epoka University

Moderator: Enris Kumi **Recorder:** Daniel Abdiaj

Other Members Present: Enris Kumi

Faik Koprenca

Daniel Abdiaj

Redi Ceni

Fjoralb Tashi

Ervin Shyti

Beniamin Lloshi

Members Absent: None

Topics Discussed: As of April 18th, 2023, the development team has completed all tasks assigned in the previous week's meetings. Each member of the team has demonstrated a high level of dedication and focus, ensuring that their respective tasks were completed in a timely and effective manner. In today's meeting, the team discussed two critical topics for the project: implementing the UI and creating a DynamoDB database. The frontend team will focus on creating an intuitive and user-friendly interface for the application, while the backend team will establish a scalable and flexible NoSQL database to store the application data. The team recognizes the importance of these topics for the project's success and is committed to working collaboratively to ensure their timely completion. Moving forward, the team will continue to collaborate and communicate effectively to ensure that the project progresses as planned. The team will also remain vigilant to ensure that all project requirements and goals are met, and that the application is developed to the highest standards of quality and functionality.

Decisions Made: Additionally, the team has decided to proceed with the implementation of the UI and DynamoDB stack in AWS CDK. The frontend team will focus on creating an intuitive and user-friendly interface for the application, while the backend team will establish a scalable and flexible NoSQL database to store the application data using AWS CDK. These decisions reflect the team's dedication to developing a reliable and user-friendly application that meets the project's requirements and goals. The team will continue to collaborate and communicate effectively to ensure that the project progresses smoothly and that all requirements are met within the established timeframe.

Tasks Assigned:

- Enris Kumi – management tasks to check the work of each member and start working researching on api stack.
- Faik Koprenca will work with Ervin Shyti to implement the dynamo db stack
- Redi Ceni, Daniel Abdiaj – will start implementing the signup, signin page.
- Fjoralb Tashi – will do a deep research on how we can implement a chat feature in our website.

Time, Place, and Agenda for Next Meeting:

- Time: 14:00-16:00, 25/04/2023 at Epoka University
- Talk about what have we done last week, what we will do and if there is something blocking our progress.
